### **About Direct Relief International and the Order of Saint John**

*Since 1948 Direct Relief International has provided disaster relief and ongoing support to health facilities around the world in the form of medical supply donations. DRI is currently providing medical supplies to the Sri Lankan Ministry of Health in response to the recent disaster. For every \$1.00 in donations, DRI supplies \$31.00 in medical equipment.*

*The Order of St. John is a worldwide organization with a humanitarian mission to help care for the sick and poor. At this time the entire order has been mobilized to do its part in bringing relief to the devastated areas.*

*In response to the tsunami disaster in Sri Lanka, St. John workers were on the scene by 3:00 p.m. on Dec. 26, the day the disaster struck Sri Lanka's shores.*
