New York Eye and Ear Infirmary of Mount Sinai

Presents the

Optimizing Outcomes with the Xen® Gel Stent: Course and Wet Lab

Wednesday, February 28th, 2018

These 1½-hour sessions will focus on XEN45 implantation techniques in our state-of-the-art microsurgical education center. The didactic portion of the course will include commentary from an international faculty of experienced Xen surgeons on topics including patient selection, surgical technique, adjunctive mitomycin use, postoperative management, and the approach to surgical revision.

Please select one session to attend:

☐	**Session 1**	**12:00pm-1:30pm**	**Xen Techniques for the Early Adopter**
☐	**Session 2**	**2:00pm-3:30pm**	**Xen Techniques for the Early Adopter**
☐	**Session 3**	**4:00pm-5:30pm**	**Xen for Beginners** *(Residents & Fellows)*
